environment,
save your future

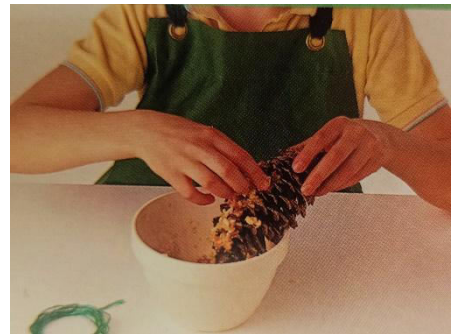

TITLE: BIRD FEEDER

OBJETIVES:

- To contribute to the care of the environment.
- To enjoy the realization of outdoors activities.
- To work the fine motor skills.
- To learn about birds, its characteristics and behaviors.

MATERIAL:

- Big pine cones
- A thin rope
- A bowl
- A spoon
- Wooden stick
- Lard, birdseeds, and breadcrumbs.

STEP 1: Mix in the bowl the lard, birdseeds and breadcrumbs.

STEP2: Insert the mixture, with the help of the wooden stick, between the hollows of the pine cone.

STEP 3: tie the string or rope to the pine.

STEP 4: Hang the pine on a tree branches, for the birds to feed.

Alternatives: you can also introduce the mixture in the hollows of a tree or in the branches, in mesh bags, inside a coconut shell, etc.
