Title: Flowers

Objectives:

- stimulating the imagination;
- enhancing students' knowledge of the nature;
- encouraging children to learn new things through play.

Materials, equipment: for two students – a plastic box, potting soil, different flowers puzzle, for each student – rubber gloves, ziplock bags, a small plastic box, laminated pictures of different flowers, paintbrushes.

Stage 1: It's better to play the game outdoors, however depending on the weather conditions it can also be played inside the school.

Stage 2: The teacher prepares the necessary materials for the students at the playground. The teacher prepares the tables for each group of students, and on the tables, finding out the necessary materials and work equipment. Next to each table, the teacher prepares the plastic boxes filled with flower soil, and the teacher places the flowers puzzle inside each box.

Stage 3: Children work in pairs. Their task is to find the flowers puzzle, then they clean them from the ground and put them on the table nearby. In the end, the students must recognize the name of the respective flower found in the potting soil. After recognizing the name of that flower they write it on a paper the name of the flower, then search through the pictures with flowers previously prepared by the teacher and they are looking to figure out the correct name for it.

Success of each team!
