TITLE: ORGANIZING AN ICE CREAM TESTING AND GUESSING TEST

OBJECTIVES:

- To make realistic predictions
- To try to know the type of icecream he tastes
- To see how each correct answer gains point for the group
- To know how to work and make decisions

MATERIALS: Lemon, strawberry, raspberry, gum drops, plain, piece of chocolate ice cream, eyepatch, plate, spoon, water

STAGE 1: Students are divided into groups of three.

STAGE 2: The instructions of the game are explained.

STAGE 3: Group members are blindfolded.

STAGE 4: Group members determine the type of ice-cream by consensus. Only one answer is given on behalf of the group. Correct answer gains points for the group
