## TITLE: Plastic bottle tops

### OBJECTIVES:

- To know different popular and traditional games and put them into practice
- To enjoy the game with respect of others, valuing the game for use in free time
- To practice various games developing attitudes of tolerance and respect
- To develop basic skills by actively participating in the game

### MATERIAL: Plastic bottle tops

Step 1: draw on the floor 2 lines and a square in the middle

Step 2: each player has 5 bottle tops, of which 4 are placed in the square and the one left is used for throwing.

Step 3: In turns, each player throws from the line with his bottle top to those in the square to try to remove them, until there are none left in the square. If the player succeeds, he/she keeps them

The player that wins is the one who manages to remove the most bottle tops
