

Erasmus+

Save your
environment,
save your future

TITLE: PRINTING

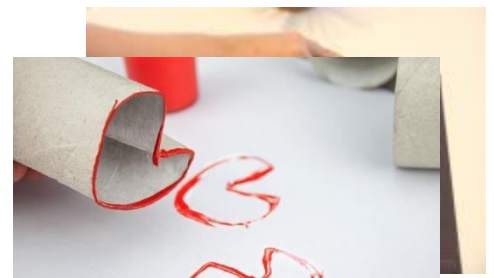

OBJECTIVES:

- To develop creative skills.
- To enjoy plastic arts and to experiment with different shapes and colors.
- To foment tolerance and respect towards the schoolmates' work.
- To promote respect and care to the environment, implementing the reuse.

MATERIAL: We need toilet paper tubes, scissors, paint, poster boards and plates. If it is possible, we should avoid using plastic plates. Instead we can use other things. For example: a box or cardboard lids, glass jar lids or carton plates.

Step 1: Do different shapes with toilet paper tubes. Here are some examples:

Step 2: Add some paint to the plates or lids. You can use more than one color.

Step 3: Soak the toilet paper tube in the paint and you are ready to stamp on the poster board!

Step 4: Once finished, you should let it dry.
